

TRIEXTA FIBRE EXPLAINED

The fibre content of the feltexgreen collection is made up of 100% solution dyed Triexta. Triexta is a generic name which was assigned by the Federal Trade Commission to describe DuPonts™ renewably sourced polymer creation. This new Triexta fibre provides consumers with a unique combination of stain protection, colourfastness, softness, durability and extensive warranties.

Simply put, Triexta is a new yarn category which is now being used to manufacture quality carpets. Commonly used fibres for carpet manufacturing are listed below and now include the new Triexta fibre.

1. Wool
2. Wool-Rich
3. Polypropylene
4. Polyester
5. Nylon
6. Solution Dyed Nylon
- 7. Triexta (brand new yarn category)**
